THE FIRE FIEND.

It Devastates Mound City.

On last Friday night a fire broke out evening of the 27th inst., the anniver- in Mound City in this county, which came near destroying the whole town. The fire was first discovered about ten and surrounding county promptly re-

The stables and adjoining building contained a number of horses, two cows and calves, and several head of hogs. These animals were all driven out before the flames reached that portion of the stable in which they were confined.

The fire having begun ih the hay mow, it was useless to try to save the building, and all hands abandoned it and worked to save the hotel and other ulldings near by.

Fortunately there were three good first of Japuary. A penalty is then wells and a large cistern near the added and in a very short time the building, and as the wind was not high penalty, costs, etc., amount to nearly the men were able, by the use of wet fifty per cent. Pay your taxes now blankets, to keep the heat from igniting the other buildings.

At one time it appeared that Mr. Oregon badly needs repairing. There Crannel's house and barn, and Hoblitis one place that is really dangerous zell & Bro's lumber yard, adjoining, for persons traveling over the road at must surely burn, but by hard work The only property destroyed, beside

-A bouncing boy baby, weighing the barn and Mr. Crannel's corn crib, which stood just across the alley, was the residence of Mr. Charles Pierce, six two sets of harness, a plow, a feed cutter, a lot of hay and corn, and few other articles of little value.

If the fire had ever reached the hotel or any of the adjoining buildings, nothing could have saved the property in that block, and the north wind would have swept the whole business portion of the town.

The fire is supposed to have been the work of an incendiary, and several suspicious persons who have been loafmissing. A horse belonging to W. A. Mackey is also missing, but as the horse was raised in Whig Valley, he may have returned to his former home.

During the fire William Sloupkins met with quite a serious accident. He was on the roof passing water, and when the flames subsided he started to some down, and the roof being wet, he slipped and fell to the roof of the shed adjoining, dislocating his shoulder and ruising himself pretty badly.

This fire ought to arouse the citizen f that place to provide some means of xtinguishing fires. A book and lader company should be organized at
